

GOALS **AND** MORE...

It was morning coffee and interesting conversation for the American Women's Group (AWG) with Susan Bagyura, author of 'The Visionary Leader: How to Inspire Success From The Top Down and Small Business Coach'. The talk was held at the Omani Women's Association office on January 11. Bagyura, who has 25 years of coaching, sales and entrepreneurial experience (she says she stopped counting after 25), spoke on goals, why we need them and the difference between goal setting and goal achieving. She also pointed out the three major mistakes people make when they set goals. Bagyura took the listeners through a six-step formula for setting a goal used by the most successful people in the world that could be applied successfully to your life as well. Earlier, AWG President Emmee Haun introduced Bagyura. What an inspiring morning this turned out to be!
